

LEGO Star Wars: The Skywalker Saga

100% Completion + Achievement Walkthrough

An original roadmap and printable checklist for completing the base game, cleaning up every major collectible category, and earning all platform achievements/trophies. It avoids exact map-coordinate spoilers where possible and focuses on the order that saves the most time.

Before You Start

- This guide assumes the base game. DLC characters are fun, but the core 100% and achievement path is about the base-game tracker, episodes, galaxy events, collectibles, characters, ships, upgrades, and challenges.
- Use the in-game Galaxy Map constantly. It is your master tracker for planets, space zones, side missions, puzzles, trials, challenges, characters, ships, and datacards.
- Do not try to perfect every level on the first story pass. Many minikits and level challenges are faster with Free Play characters, scavenger tools, better upgrades, and stud multipliers.
- Spend Kyber Bricks on upgrades that speed collection before buying combat luxuries. The faster you reveal, reach, attract, and afford things, the faster the 100% grind becomes.

Fastest 100% Roadmap

Phase	What to do
1. Story pass	Finish all nine episodes in any order you enjoy. Grab obvious studs and easy minikits, but keep moving. This unlocks planets, characters, ships, Free Play access, and the nine episode completion achievements.
2. Core upgrades	Buy collection-focused upgrades: Attract Studs, Collectible Detector, extra health if needed, faster build or traversal tools, and class upgrades that open shortcuts.
3. Datacards and stud extras	Prioritize datacards that unlock stud multipliers. Buy x2 first, then stack x4, x6, x8, and x10 as soon as you can. Stacked multipliers make True Jedi, character purchases, capital ships, and the 10 billion studs achievement trivial.
4. Level Free Play sweep	Replay all 45 levels. For each level, leave only when you have True Jedi, all five minikits, and all three level challenges. This clears the level side of the completion screen.
5. Planet-by-planet galaxy sweep	Pick one planet, open every local area, and clear every puzzle, side mission, race trial, challenge, character token, ship token, and Kyber Brick before moving on.
6. Space and capital ships	Clear space events, comets, races, encounters, and capital ships. Purchase ships after unlocking them; unpurchased unlocks can hold back completion.
7. Achievement cleanup	Finish the miscellaneous trophies: disguises, helmet shots, creature riding, Jedi mind trick in the Cantina, 30x combat multiplier, TIE fighter kills, explosion triple kill, GNK/Jawa chains, and no-death flight mission.

Completion Rules That Save Time

The golden rule

Treat every place as a checklist. Do not leave a planet or level halfway cleaned unless the game is clearly blocking you behind a later unlock. Partial cleanup is what makes the final 5% miserable.

Recommended upgrade priority

1. Core: Attract Studs, Collectible Detector, Speedy Sprint if available to your platform/build, and any traversal or interaction upgrades you use often.
2. Scavenger: unlock and learn the Net Launcher, Glider, and Breaker Blaster during story progression, then use Scavengers for unreachable collectibles.
3. Bounty Hunter: upgrades that speed golden-object destruction and ranged combat help in many Free Play runs.
4. Jedi/Dark Side: Force interactions, mind trick cleanup, and general combat reliability.
5. Hero/Villain/Scoundrel/Droid classes: buy practical upgrades as needed, then finish all class trees once Kyber Bricks and studs are abundant.

Stud economy

- Buy stud multipliers as early as possible. Multipliers stack, which makes True Jedi requirements and character purchases much easier.
- Once multipliers are active, replay dense levels and smash everything. Levels with vehicle combat or large battlefields are strong stud farms.
- Do not delay purchases forever. Characters, ships, rumors, and class upgrades all matter for 100% progress.

Story and Level Walkthrough Checklist

Every episode has five levels. Your first pass should unlock content. Your Free Play pass should complete each level fully: True Jedi, 5/5 minikits, and 3/3 level challenges.

Free Play Team Checklist

Before a serious Free Play sweep, make sure your roster can answer every common LEGO puzzle type. Use any characters you like, but keep these classes represented.

Class	Why you need it
Jedi or Dark Side	Force move/build interactions, lightsaber walls, mind tricks, general combat
Hero	Hero terminals, disguises, grapples, blaster combat
Villain	Villain terminals, grenades/silver objects, Imperial access
Scavenger	Net Launcher walls, Glider gaps, Breaker Blaster cracked walls
Scoundrel	Scoundrel aim/weak-point interactions and ranged utility
Bounty Hunter	Gold LEGO objects and fast ranged damage
Astromech Droid	Astromech terminals and small droid tasks
Protocol Droid	Protocol terminals, passwords, and translation-style interactions

Galaxy Sweep: Planet and Sector Checklist

For each planet: land in every local area, buy rumors only when useful, clear the map icons, finish local side missions, complete races/trials, collect characters/ships, and check space above the planet. Only move on when the planet tracker is 100%.

Per-planet clearing method

- Open the local map and set a route through the densest cluster of icons.
- Clear visible Kyber Brick puzzles first; they often unlock shortcuts or nearby characters.
- Accept every side mission you pass, but finish delivery missions in batches so you do not bounce between planets inefficiently.
- Complete race trials while you are already in the area. Leave difficult races for later only if you need a faster ship or better familiarity.
- Check the character and ship menu after unlocks. Buy newly unlocked items; unlocked but unpurchased content can still be missing from completion.
- Before leaving a planet, check orbit for space events, comets, races, and capital ship encounters.

Datacard and Extra Strategy

Datacards are the most important optional collectible early because they unlock Extras. For completion speed, buy stud multipliers first. Cosmetic or joke extras can wait until the money is flowing.

- Best early extras: Studs x2, x4, x6, x8, x10. Buy in that order as soon as possible.
- Useful collection extras: Collectible Detector upgrades and any extras that make navigation easier for you.
- Completion habit: after every major planet sweep, check whether you have enough studs and datacards for the next multiplier.

Kyber Brick Strategy

Kyber Bricks come from story and Free Play levels, open-world puzzles, side missions, trials, galaxy challenges, and exploration. The achievement list specifically includes collecting 1000 Kyber Bricks; for true 100% completion, keep collecting until the game tracker says the relevant zones and overall save are complete.

- Level Kyber Bricks: finish level, True Jedi tiers, all minikits, and all level challenges.
- Planet Kyber Bricks: map puzzles, rooftop climbs, Force puzzles, droid terminals, character quests, races, trials, and side mission rewards.
- Space Kyber Bricks: Kyber comets, space trials, encounters, and capital ship-related activities.
- Spend bricks aggressively on upgrades that reveal or speed up future bricks. Hoarding them slows you down.

Achievement/Trophy Walkthrough

The Epic Games Store lists 45 achievements for the game. PlayStation adds the Platinum trophy for unlocking all other trophies. The checklist below groups the achievements by natural completion order.

<input type="checkbox"/>	I don't like you either!	Achieve a combat multiplier score of 30	Use crowded combat arenas; avoid getting hit.

Miscellaneous Cleanup Mini-Guides

Jedi Business

Go to the Cantina with a Jedi or Dark Side character that can use mind tricks. Find a group of NPCs, trigger mind trick behavior on several of them, and keep causing chaos until five are fighting at the same time. If it does not pop, move around the Cantina and repeat on a denser cluster.

A little short for a Stormtrooper...

Use a Hero character. Break racks or objects that drop disguise pieces, equip a full disguise, then switch characters or otherwise remove the disguise and repeat. You need full disguises, not just one piece.

I can fly anything

Choose the flight level you find easiest. Do not chase every stud or target during the no-death attempt. Fly conservatively, prioritize survival, and return later after you know the route.

I have never seen a real one!

Ride creatures as you encounter them rather than saving them for the end. Common targets include Tatooine mounts, Naboo mounts, Hoth Tauntauns, Jakku creatures, Cantonica Fathiers, Kef Bir Orbaks, and arena creatures from Episode II.

Only one business in the Galaxy...

Do not grind seriously until multipliers are stacked. Once high multipliers are active, replay stud-rich levels, smash dense hub areas, or use endgame stud showers/reward areas if available in your save.

Final 100% Audit

When the save is stuck at 99-point-something, use this audit rather than wandering randomly.

- All nine episodes complete.
- All 45 levels have True Jedi.
- All 45 levels show 5/5 minikits.
- All 45 levels show 3/3 challenges.
- Every planet and local area shows 100%.
- Every space zone and capital ship you have unlocked is cleared.
- Every datacard is collected and every required Extra is purchased.

- Every character is unlocked and purchased, including alternate versions required by the tracker.
- Every ship/vehicle/microship is unlocked and purchased.
- All character classes are fully upgraded.
- All side missions, puzzles, trials, races, and galaxy challenges are complete.
- Achievement cleanup list is empty.
